Recipients of the Sanitation District of Los Angeles County's

"GOOD CORPORATE CITIZEN" AWARD

The Sanitation District maintains a strict code of compliance for its industrial dischargers. The recipients of this award meet, and often exceed the requirements. Their efforts assist with the wastewater collection and treatment systems allowing them to run more efficiently.

The Sanitation Districts have always worked closely with industry, and recognizing industry for conscientious compliance is a further step to encourage companies to meet regulations, protect the environment, and save water and energy."
